Re: PR Course Renewal Approval

The 80-hour pre-registration home inspector course renewal that you submitted was approved by the Board at its meeting on January 11, 2024. The approval is valid until January 15, 2026, if the course is presented as submitted and taught by the instructors you specified. If the course content, schedule, class materials or instructors should change, this approval will be invalidated until such changes are approved by the Board, as required in the Rules.

Course Name: **Residential Home Inspection Basics**
Approval Number: **PR-2024-01**

In order for your attendee to receive credit by this Board, certificates of completion given to each home inspector must include the following:

- name of school, provider or sponsor
- name of student
- course title and approval number assigned by the Board
- statement concerning confirmation of classroom course delivery and course location
- number of completed education hours
- dates taken/completed
- signature of an approving authority and/or instructor

If you have any questions, please contact me at jimmie.sue.puckett@arkansas.gov or 501-683-3777.

Sincerely,

A handwritten signature in blue ink that reads "Suzie Puckett" followed by a simple smiley face drawing.
